Photos On The GoI have bought other books Off The Beaten Path series. This book is light reading. There are many interesting places listed in the book. They are not high traffic and over priced places. I like the places because they are more a personal level. You get the kind of one on one attention. I am going to continue adding the other series either to my kindle or hard copy collection. This is the 1st one I bought of the series. I loaned to to a friend and well you know how that goes. So I had to by another one. 1 of 1 people found the following review helpful. good guideBy DAGERThis is a good guide to have if you live in or visit Tennessee. It contains lists of top picks and also descriptions of parts of the State you can visit as itineraries. Many of the things mentioned on Nashville and Middle Tennessee I knew already but there were a number of pleasant new suggestions. A good weekend guide to keep in the car. 0 of 0 people found the following review helpful. Fun!By Gotta TellyaI am moving to TN in 2015. I read this book as an introduction to my soon to be home state. The guide was well done, humorous, and enlightening. I plan to check out many of the interesting and quirky sites described.
