I marked off the birds I saw and it will help me remember them as time goes by. 0 of 0 people found the following review helpful. Quickly Name the Birds By Patricia The Folding Pocket Guide of Costa Rica Birds has a well-chosen selection of birds, clearly shown for quick identification of birds In the fields, meadows, or waters of Costa Rica, in sunshine or rain. Compact, easy to pack and carry. The pleasure of seeing birds that are new to you is increased so much if you can give it its proper name. 0 of 0 people found the following review helpful. Very useful easy guide to the birds of Costa Rica By Cactus Carol Very useful easy guide to the birds of Costa Rica. Compact so doesn't take up much space. I was hoping to find a bird with a very long yellow tail in the guide which I had seen by Lake Arenal but didn't find it in this guide. The guide is fine for the casual bird watcher but I think a serious birder might need a more comprehensive guide and have to carry a big book or kindle. It is well produced and easy to use.

Texas' state insect, the monarch butterfly, is one of over 1700 species of butterflies and moths found in this region. This beautifully illustrated guide highlights over 70 familiar and unique species and includes information on their life cycle and features illustrations of common caterpillars and pupae. Laminated for durability, this lightweight, pocket-sized folding guide is an excellent source of portable information and ideal for field use by visitors and residents alike. Made in the USA.

Waterford Press offers . . . different titles such as Backyard Birds and Birds of Prey . . . although these contain only simple listings of the most common types in your area, its amazing how many species they pack into these inexpensive heavy duty cards. An added benefit is that they can be folded to create a book-like spine for easy display. -- Birding Business, Trends in Books There are dozens of these stunningly illustrated pocket guides to nature. They easily fit in a shirt pocket with space left for note paper and pen. While you won't want to discard your bulky bird, flower, tree, etc. books, these are ideal casual identification guides. In addition to the illustrations, there is enough descriptive material on each species to key in on and then follow-up when it is convenient to scour the books for greater details and confirmation. If we ran a store that catered to outdoor enthusiasts, we'd sure have some of these in the rack. -- Shep, Bookshelf Nature lovers may want to look into an expanding series of pocket guides from Waterford Press. The Pocket naturalist series has something for everyone's backyard. The laminated foldouts feature up to 150 items per guide on topics such as urban wildlife, backyard, birds, pond life, the night sky, and wildflowers. There are also regional, state and city guides for even more specific information. Each water-and-dirt-resistant guide sells for \$5.95. -- Garden Ideas and Outdoor Living
