**David E. DeWall : The Single Guy's Guide to the Philippines** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Single Guy's Guide to the Philippines:

The information contained in this guide will provide you with some useful information that will help you meet that special someone. You'll discover that you are a celebrity in this land of 7,107 islands. Sometimes you might even feel

like a rock star. I've even had some expats tell me they're a god. Don't know how many bottles of San Miguel Pilsen they had imbibed when they reached that conclusion, however. But be forewarned, there are lots of scammers out there that you may have chatted with already online and plan to meet. You're going to encounter a lot of really friendly people in the Philippines and many of those will be beautiful Filipinas. But you'll also come into contact with pretty pinays that will want to drain you of every peso you have. And that's a fact. I've talked to some expats that have lost tens of thousands of dollars, not pesos, to women they have met here, in a matter of a few months. Don't think it can happen to you? Think again, my friend. Hopefully this guide will help you sort it all out. I sincerely want you to find the woman of your dreams in the Philippines. I met my dream woman over thirteen years ago and I'm so thankful I did. My beautiful Filipina wife is patient, loving and beautiful and puts up with my grumpiness. At the age of 61, I believe I am headed for a starring role in Grumpy Old Men if they ever do another remake of it. Thank God, most Filipinas have plenty of patience.
