Samuel Noah Kramer : The Sumerians: Their History, Culture, and Character (Phoenix Books) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Sumerians: Their History, Culture, and Character (Phoenix Books):

0 of 0 people found the following review helpful. I probably would enjoy something more recent and a little less

specializedBy Zoe's DadA little too complex and technical for me. I probably would enjoy something more recent and a little less specialized.0 of 0 people found the following review helpful. A great read for anyone who is seeking to learn about ...By CustomerA great read for anyone who is seeking to learn about the ancient Sumerians. Written by one of the first archaeologists to dig in what was once Sumer.1 of 1 people found the following review helpful. Brilliant history and evaluationBy Lynn B. SchornickThis incredible book tells you just about everything possible about The Sumarians. It's a phenomenal history: law, economics, trade, social wellness, family, relationships, education and much, much more. It has about as much detail as anyone who is not specifically a scholar of Sumeria can absorb. Brilliant book for those who are truly interested!

The Sumerians, the pragmatic and gifted people who preceded the Semites in the land first known as Sumer and later as Babylonia, created what was probably the first high civilization in the history of man, spanning the fifth to the second millenniums B.C. This book is an unparalleled compendium of what is known about them. Professor Kramer communicates his enthusiasm for his subject as he outlines the history of the Sumerian civilization and describes their cities, religion, literature, education, scientific achievements, social structure, and psychology. Finally, he considers the legacy of Sumer to the ancient and modern world. "There are few scholars in the world qualified to write such a book, and certainly Kramer is one of them. . . . One of the most valuable features of this book is the quantity of texts and fragments which are published for the first time in a form available to the general reader. For the layman the book provides a readable and up-to-date introduction to a most fascinating culture. For the specialist it presents a synthesis with which he may not agree but from which he will nonetheless derive stimulation." *American Journal of Archaeology* "An uncontested authority on the civilization of Sumer, Professor Kramer writes with grace and urbanity." *Library Journal*
