Exactly what I was looking for. I am dating a man in Austin TX and am considering moving there, purchasing some land in the Hill Country ,and building a house. I've been to several of the cities in the book and eaten at some of the restaurants listed. I want to visit some of the vineyards and farms. Pictures are lovely and the book includes recipes from the many restaurants, vineyards and farms mentioned in the book. The hill country is magical. It has seduced me as much as the Texan I love!!!2 of 2 people found the following review helpful. Wonderful guide for the Hill CountryBy Hill Country DevoteeMy husband and I love to get away to the Hill Country as often as we can. This wonderful book has given us ideas of new places to explore and new restaurants to try. We recently went with friends to the Hill Top Cafe near Fredericksburg, based on what we had read in the book. What a fantastic evening we had! Can't wait to try out more of the great restaurants (and recipes) found in the book. The photographs are stunning and make you feel you are right there. This book will make a great gift for all our friends!0 of 0 people found the following review helpful. Will be moving to this area in a couple
