0 of 0 people found the following review helpful. the only way to find anything in portlandBy Vintage PowerReaderPortland is maze of hills, intersected by rivers. Toss in a few volcanoes and poor road planning and you will not drive 10 miles without this in the car. Love Portland for twenty years now, won't leave home without it.0 of 0 people found the following review helpful. Old-school Google MapsBy stukincaliforniaI bought this for my daughter that just started driving. She has a dumb phone, so not magical Internet maps. I wanted her to learn her way around and this seems like the best atlas. I have used them extensively in my past.I found a street name typo. Other than that the quality seems high. She carries it around in her car in case she gets lost and doesn't have her phone.
