Best Map Book of Sac at Best PriceBy Book ReaderThere are not a lot of alternative map books for this area - this is as complete as you will find and is easy to navigate. It's worth buying it at if you're looking to get the best price and they will send it as soon as it becomes available (if you're purchasing the latest one that isn't out in stores yet). The ring binder makes it easy to have in the seat next to you...not much else to say about it, nice map book.0 of 0 people found the following review helpful. GPS sent me in circles!By TerryI was in Sacramento with a vendor trying to find a customer. We went around in circles three times. I pulled out the Thomas Guide and were there in minutes.Plus, you can make notes on the pages on where your accounts are.0 of 0 people found the following review helpful.
