Thomas Guide : The Thomas Guide San Diego County Streetguide (Thomas Guide San Diego County, Ca Street Guide) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Thomas Guide San Diego County Streetguide (Thomas Guide San Diego County, Ca Street Guide):

Probably not a lot. I bought this as a backup if all else fails between the built-in GPS in the car or using Waze or Google Maps on Android. We also have them to give to real estate clients that don't have or know how to use technology. If you need a printed map for any reason, The Thomas Guide is probably the best there is out there. 0 of 0 people found the following review helpful.

Solid, Dependable, Usable Maps of Very Large CountiesBy SurreallyRealThese are not the perfectly detailed maps of the 90's anymore, BUT for the price and what they are, I am still impressed. The Thomas Guides provide enough different and detailed information to help you locate the majority of what you need. Perfect would cost a lot, IF it even exists. BUT, having had to do a lot of driving in unknown territory, this is my third different Thomas Guide in a year, and it really helped me a lot. I'd recommend this San Diego County or any other Thomas Street Guide.0 of 0 people found the following review helpful. Comprehensive and easy to read.By R. MillerComprehensive and easy to read.
