ValentineI downloaded this book when it was offered for free, most likely as a promotion of some sort, and had a relatively good time reading it. Perhaps because I am a New Yorker myself, I found the material included to be nothing special, and far too focused on sports for my taste. Not to say that there weren't some parts I enjoyed (the chapter about crime in the city was fascinating), but I found myself skimming more than a few pages. That being said, someone who is planning a trip to NYC and is not overly familiar with the city may find this book useful, but I still do not think that \$10 is a fair price for a relatively haphazard conglomeration of lists containing information which can be found for free via several strategic Google searches.0 of 0 people found the following review helpful. Not My Type of BookBy Mona L. MennerDidn't spend much time looking at this book so probably can't give it a fair and informed rating. I'm sure there are those who might find it interesting.0 of 0 people found the following review helpful. Thoroughly enjoyed thisBy Cathy L. CraigoI've only been to New York once, and I loved it. This book has lots of useful and just plain entertaining information. Anyone interested in visiting New York should have this. If and when I go back, my kindle is going with me with this book at the top of my list.
