Needs Updating, but Still a Good GuideBy Carolyn MathewsWe live in Montana and use this book a lot in spite of the fact that much of the information is outdated. Many of the shops, stores, and restaurants listed are either out of business or have different operating hours. The basic information, however, is still good--recommendations about what to see, roads to take, etc. I do recommend this guide, however. Just call ahead if you plan to shop or eat somewhere, especially in the smaller towns, to be sure your destination is still in existence.0 of 0 people found the following review helpful. Five StarsBy SamGreat1 of 1 people found the following review helpful. Not what I expectedBy CMRI was looking for a book to help with an upcoming trip to

Glacier National Park area, but this one didn't fit the bill. While I wanted suggestions for things to do, day trip recommendations, trail information, etc., this book is more like a "yellow pages" of Montana. Want to know about motels? It's here. Want to plan activities? Probably not the right book. It's all black and white, very large (too large to pack), maps are scarce. I'm going to look for a different option.

Even the most famous explorers relied on a knowledgeable guide. And nowhere will you find a more knowledgeable guide than The Ultimate Montana Atlas and Travel Encyclopedia. It would require almost a dozen of the top guidebooks on Montana to find the information contained in this single volume and you still wouldn't have everything that is in this book! 114 maps 52 maps of towns and cities Over 2,000 Restaurants Over 700 Motels More than 350 public campgrounds More than 250 private campgrounds 96 Forest Service cabins Over 200 guest ranches and resorts Over 200 bed and breakfasts Over 250 vacation homes and cabins Over 450 outfitters and guides 130 airports More than 225 fishing sites Over 160 Lewis Clark points of interest 71 public golf courses Over 300 museums and historical sites The text of over 300 historical markers More than 25 hot springs Over 300 hikes Over 100 Cross-Country Ski Trails Over 65 scenic drives and sidetrips More than 50 ghost towns 31 downhill and cross-country ski areas Over 650 gas stops More than 400 attractions More than 1,000 photographs Weather information for over 40 locations Information on over 300 cities and towns 1,000s of things to do in Montana 1,000s of addresses and phone numbers and more!
