Eve Zibart : The Unofficial Disney Companion before purchasing it in order to gage whether or not it would be

worth my time, and all praised The Unofficial Disney Companion:

1 of 1 people found the following review helpful. Really not worth the the money...By Honest AbeI have been a big fan of the Unofficial Guide to Disney World for several years now. I have purchased one yearly for the past twelve years. We recently decided to purchase the Companion book to the Unofficial Guide to WDW, believing it would provide some interesting background Information. Instead we were basically given a book of pretty much useless drivel. It's really hard to see where she even likes or enjoys WDW. The author completely lambasted the Hall of presidents; going off on some bizarre 'white guilt' rant (after a bit of looking around it turns out she was a former Washington Post reporter, which explains quite a bit). The entire book is more or less a weird overview of the 'World' through eyes of a liberal elitist. If that's your thing, enjoy. Otherwise, don't waste your time or money.7 of 8 people found the following review helpful. An informatiove synopsis of the evolution of Disney WorldBy adaii@aol.comThis book gives an interesting look at the inner workings and evolution of Walt Disney World. From the way the land was aquired, to the way the garbage is disposed. My only problem with the book is the detail. There are a lot of interesting topics and information, but there is much more to this story than 200 + pages of tidbits. It longs for a sequel to be written, on almost every chapter. Buy this book if you are a Disney Information Addict.2 of 3 people found the following review helpful. Excellent source of Disney trivia!By A CustomerThis book has a wealth of info on Disney World, how, where, when, and why it was built and how it's run. There's also lot's of great information on the company behind the World, it's other businesses and corporate culture. My wife and I found it very interesting and a nice way of closing out our recent trip to Disney World.

This first reader's companion to the country's number-one tourist destination by the authors of The Unofficial Guide to Walt Disney World takes a look at the vision and operation of the Disney empire, including anecdotal background information about the park and about Walt Disney himself.
