Kathryn D Willis : The Year of the Dog: 52 Weeks of Memphis before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Year of the Dog: 52 Weeks of Memphis:

Loki came to Memphis Animal Services in the fall of 2010 as a scrawny, sick puppy. He was adopted soon after to be the first dog Kathryn ever owned. Since then, Loki has grown into a patient, smart, and eager dog with a personality all his own. This year-long photo adventure highlights places in Memphis - both well known and rarely frequented - and features Loki as the ever faithful subject. Whether you are someone who has lived in Memphis your entire life or a visitor looking for what the Bluff City has to offer, take a cue from Loki and explore some of the great places that make up Memphis with fresh eyes, a sense of humor, and an open heart. One photo. Once a week. One year. The Year of the Dog: 52 Weeks of Memphis.

About the Author Kathryn Willis grew up in rural New York where she earned a B.S. in Theater Arts Management from Ithaca College. She moved to Memphis in 2010 where she decided to instead pursue her passion for animals and started a career in the veterinary field. When she isn't helping pets in the animal hospital, she's usually out exploring

Memphis and photographing her dog, Loki. In addition to the work she does as a professional photographer, she also volunteers her photography skills for animal rescue groups, helping to bring attention to other rescue pets in need of homes.
