The authors interviewed many of their subjects and some of the newspapermen who covered them, and the result is a wonderful combination of history and humor. If you think you have even a mild interest, you won't be disappointed.0 of 0 people found the following review helpful. Book by Bowles, Billy, Tyson, Remer

From Publishers WeeklyStitching together interviews and reminiscences of governors, legislators and local bigwigs, Detroit Free Press reporters Bowles and Tyson provide a close-up, anecdotal look at string-pulling, horse-trading politics in the South, from the populist '30s to the civil rights era. Their subjects include hard-drinking, cunning "Big Jim" Folsom, twice governor of Alabama, who attempted to forge a loose coalition of poor whites and blacks; his successor, "rambunctious soul" George Wallace with his racist politics; an "unholy trinity" of country lawyers who

dominated Tennessee's legislature in the 1950s; and "wool hat boy" Marvin Griffin who, as Georgia's governor, is said to have hand-picked members of his state's legislature. The authors, both native Georgians, spice their narrative with colorful tales of bootleggers, mule traders, lobbyists and liars. They also give credit to "courageous, hell-raising, God-fearing" newspapermen who poked around the South from the 1940s onward and opened up the issue of race relations. This is a book of strictly regional interest. Photos. Copyright 1989 Reed Business Information, Inc.
