0 of 0 people found the following review helpful. Some cool info, some trite, no editor. By Reader1234567 Looks like this book was written with speech dictation software and nobody proofread it at all. He used the wrong word left and right. Very, very distracting to read. I could only take small doses at a time because it was so annoying. There were some glaring factual errors that one purporting to be a park expert should not make. "Mr. Potato Man?" Come on! Plus he left some outdated references in this "new" edition. I got it when it was free. I wouldn't recommend spending money on it. Get the Imagineers' guide instead.
