This is great for those of us who have problems with or ...By Poppykiote This is great for those of us who have problems with or do not like wireless technologies or being chained to computers all the time. I hope that they continue to make maps like this or go back to making them at least for those of us who don't want that technology for whatever reasons. 0 of 0 people found the following review helpful. Essential for Getting Around the Bay Area By H. Nakayama Unless you have driven the Bay Area for years and know most of

the streets and freeways by heart you will need this comprehensive mapbook to get around. Thomas Brothers produces the best street mapbooks for California cities. I am glad that they finally came out with a mapbook that includes all of the major metropolitan areas around the bay. I found it to be handier to use than an having to use several of combined county mapbooks. I also like their new portrait format, which is clearer and shows more area per page and their old landscape format.0 of 0 people found the following review helpful. Five StarsBy CustomerEveryone should get one every 5 years. You can see your area develop.
