Every single road and backyard in LA is depicted here, making it easy for you to find shortcuts from A to B that not even the best satnav knows.It also lists points of interest, highway entrances/exits etc.A book everyone in LA should have in their glove compartments.(also very handy if you're a tourist and searching for the nearest bus stop or the shortest way to the next museum)0 of 0 people found the following review helpful. one of the easiest way to find locations in LA,after gpsBy Akylaiits from 2006 but i would highly recommend this one instead of new guides.newer books dont contain hotels and some parks.if you want to take taxi cab driver test best thomas guide will these.i'm giving 4star just because i never got book at my address ,its my own fault wrote different zip code.strongly recommend never buy 2012.hate that one0 of 0 people found the following review helpful.
