Mary R. Rinehart : Through Glacier Park in 1915 before purchasing it in order to gauge whether or not it would be worth my time, and all praised Through Glacier Park in 1915:

By Linda Tippetts Personal accounts of historical figures such as Charlie Russell and Howard Eaton on an ambitious trip by horseback into Glacier Park. Would like to have been on THAT one! 2 of 2 people found the following review helpful. Great book! By allan bentz Enjoyed reading this book very much. Having just seen Glacier for the first time, it was like being there again. Her descriptions are colorful and enthusiastic, with the flavor of writing from the last century. Now I want to experience the park again, only this time from horseback! 10 of 10 people found the following review helpful. Worth waiting for! By Margaret A. Shauers This was one of the few titles I lacked of MRR. I ordered, and it was back-ordered for so long that at one point I didn't think I'd get it at all. But I did and I'm really happy to have it. This book tells of many of the real-life adventures Mary Roberts Rinehart and her family had--back when the great Northwest really was only becoming known. She brought the cowboys, the trail drives, the friendships--and the dangers--to life wonderfully.

A delightful travelogue by one of the most popular and prolific writers of this century.
