the four peaks area many times and it's nice to know where some of these trails lead. They seem to show all but the
smallest of trails. The durability is great and should certainly be waterproof. I matched these up with a waterproof map
case and some china 'grease' pencils. The pencils work great on the map itself and erase easily with a white eraser.
Great maps for learning to navigate with a GPS.I'm very satisfied with the quality of these maps. I've bought others for
all over Arizona which were dated 2012. These are 2009.0 of 0 people found the following review helpful. Days after

into the Sierra Ancha Wilderness in the Tonto National Forest. The durability, accuracy, and attention to detail
allowed us to locate remote water sources (some of which are seasonal, so do your homework and be prepared), and
identified numerous land features and trail systems not shown on other maps. After days of rough handling,
continuous folding in damp conditions, our map showed no signs failure. For anyone planning a hike into unknown
territory, these maps are a must and well worth the price.0 of 0 people found the following review helpful. Five
