By retired teacher
With so much variety of things to see and do, this book gave the information we needed to decide where to spend our limited time. I saw everything on my personal list which was developed mostly by using this book. DK Eyewitness are by far my favorite travel books, and their "Top 10" are packed with information. I purchased several San Diego/CA books, but this is the one that went along with us since we had no checked luggage and needed to travel light. The map was excellent in deciding what places to visit in the same day.
I find hotel restaurant information printed in the travel books is outdated frequently as they change owners, names, and times open to dine. There is an abundance of current information online - much too prolific to publish. I usually phone ahead to get specific facts.

By Janna Caywood
Decent book for the novice San Diego visitor. I always love the way DK lays out their books, with lots of great photos too. A native resident went through this particular "DK top 10" book with me on the plane and thought some of the recommendations were not what SHE would recommend, but overall thought it covered the basics. I would have liked to have had more info on Coronado since that's where we stayed. Was a fun trip!

By Thomas Van Groen
This is an OK guidebook for San Diego, it does not contain everything you might want, but has all the basic info. As usual the hotel and restaurant suggestions are very limited.
