times. does do a good job of listing most hikes. does not mention the bigger hike at twin falls, but that might be because of hike maui having access to the better hike...0 of 0 people found the following review helpful. This book "drove" our daily outings and encouraged us to explore areas of Maui that we'd bypassed on 3 previous trips to the island. Detailed descriptions of hikes really helped us prepare for each. (In fact, I found myself advising others at trailheads.)0 of 0 people found the following review helpful. Informative and usefulBy CustomerThis is a great guidebook for Maui hikes. Leave the superfluous info about hotels, things to do, etc. to other books: this one helps you focus on getting on the trails and walking through nature! This was one of my top resources on my last trip, and I'm glad I had it with me.
