David Urmann : Trail Guide to Grand Staircase-Escalante National Monument before purchasing it in order to gage whether or not it would be worth my time, and all praised Trail Guide to Grand Staircase-Escalante National Monument:

9 of 9 people found the following review helpful. Poor Quality BookBy Thomas S. BudlongThe bad news:-- The few

maps are woefully inadequate.-- In this computer age, there is NO EXCUSE to omit an index.-- Uninspired and thin writeups.-- No trail summary, listing in one place a table of all the hikes with length, difficulty, elevation change, ... for each. The good news:-- This hiking book won't increase hiker density, meaning increased chance of solitude.-- It is indeed small and portable. 0 of 0 people found the following review helpful. Trail Book By C. Addington Great detail. recommend 0 of 0 people found the following review helpful. Trail Guide in Escalante By Beverly Sherrer I found it very helpful for planning my trip to this area in late spring. Lots of great information I did not find in other books.

Devil's Garden, Death Hollow, Wolverine Creek--such names suggest the wildness of Grand Staircase-Escalante National Monument. Designed for both the drive-through traveler and those already somewhat familiar with the monument, this definitive guide leads adventurers through beautiful but challenging landscapes, and details hikes, campgrounds, and Indian ruins.

From the Inside Flap Contents How to Use This Guide Chapter One: Background Information Chapter Two: Canyons of the Escalante Chapter Three: The Kaiparowits Plateau Chapter Four: The Grand Staircase/Paria River Country From the Back Cover The definitive companion for the adventure-seeking traveler. Escalante Canyons - Kaiparowits Plateau - Grand Staircase Revealing its history, climate, and geology, this guide defines the monument's place as a breathtakingly unique part of Utah. -Remote, scenic hiking trails -Hidden waterfalls -Multicolored cliffs -Ancient Indian ruins -Rustic campgrounds -Majestic canyons About the Author David Urmann, a geologist, began his hiking adventures at the age of fifteen with his dog Brutus. After treks through the Uintas, Wind Rivers, and Bear Toths, he landed in Utah's last vast wilderness.
