**Carellen Barnett : Trail Riding Western Montana (Falcon Guides Trail Riding)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Trail Riding Western Montana (Falcon Guides Trail Riding):

I used to go to the USFS stations and ask about trails and trailheads to find out if I could get in and out with a 6 horse trailer, whether there was water, hitch rails, a camp spot, grass for stock, etc. I often rode young, green horses or mules and needed to know the condition of

the trail and whether it was suitable for taking them on it or if I should choose another trail. I hope this book will someday be reprinted and I am currently looking for a publisher. Widner Last summer while using this book as our guide, we trailered from MN 3 babies (horses), two dogs, and one teenager. We had the vacation of a lifetime. We rode for two weeks, 6-8 different trails at 5 different locations. Very accurate descriptions for trail difficulty, trailheads and what you will see. We even met a couple that had contributed a couple rides to help create the book - they autographed our copy 8-)). We are returning this year with Ray, our mule, to pack in to the Chinese Wall. That is the only thing they don't tell you in this book. You ride to the very edge and have to turn around a go back to camp. Quite the tease for folks who want to get away from everything. Congratulations Ms. Barnett MT Horsemen for working together and putting such a great resource in our hands. Now if we could only get a similar book for CO, ID, UT . . . 4 of 5 people found the following review helpful. Montana Horse People Must Have This Book By A Customer Anyone living in Montana and owning a horse should have a copy of this wonderful trail guide. It is explicit in describing the trails.. how to get there... what time of year to go... what to take... what regulations apply.... everything!! If you live locally in the Flathead Valley in Montana you can find this book at North Valley Ag Center and Westrends. If you have a copy that is unsigned, you can call Carellen at 406-892-5877 and she will sign it for you. And help you plan your horseback trip.

Climb into the saddle and join a rich Montana tradition of horses, riders, and packers. Richer, though, than this heritage is the land from which it springs. From the back of a horse, you can glimpse country in Glacier National Park, in major national forest lands, and in wilderness areas of western Montana few people ever see. Ride along the Rocky Mountain Front where the prairie meets rocky escarpments and explore other great Montana mountain ranges - Swans, Bitterroots, Gallatins, and beyond. From horseback you will enjoy the same vantage point held by nomadic tribes, early explorers, and hard-working cowhands and wranglers. Trail Riding Western Montana is the only trail guide written specifically for the Big Sky State's horseback riders and is chock-full of tips on the best trails for horses, equine first aid, and preparing yourself and your horse for the rigors of backcountry riding. Trail descriptions, maps, and photos provide first-hand information for short day rides and extended pack trips. Also included are packstock regulations. Don't forget to pack Trail Riding Western Montana in your saddlebags before you head out on your next backcountry riding adventure.

From the Author After moving to Montana in 1986 and trying to find out what trailheads and trail conditions were around the Flathead Valley and in the Bob Marshall Wilderness. I went to every Forest Service station I could and asked for information. Very few of the 'rangers' could tell me what I needed to know. Could I turn around a 6 horse trailer at a specific trailhead? Was there a hitchrack? What about parking and leaving my rig for days at a time? Was there water or grass available? Was the trailhead marked? Was there a stock limit on the trail? How far did I need to ride before finding a suitable camp? What was the trail itself like? Was it cleared of deadfall and winter debris? I wrote this book after spending 10 summers riding and packing in the wilderness and forests of Western Montana. I took notes, kept a journal and took pictures. I have been a member of the Back Country Horsemen of Montana for over 30 years. I became a horseback riding instructor and was partner in Outfitters Supply, a horse gear retail outlet in Columbia Falls, Montana. From the Inside Flap MAY YOUR HORSE NEVER STUMBLE, MAY YOUR CINCH NEVER BREAK, MAY YOUR BELLY NEVER GRUMBLE, MAY YOUR HEART NEVER ACHE! From an old horseman I once knew.....
