From ADIRONDACK MTN CLUB : Trails of the Adirondack High Peaks Region before purchasing it in order to gage whether or not it would be worth my time, and all praised Trails of the Adirondack High Peaks Region:

4 of 4 people found the following review helpful. Required ReadingBy Brandon TuchovskyI wouldn't be caught dead without this map. This is the most comprehensive map of the Adirondack trails. Usually it comes in back of the ADK book "High peaks of the Adirondacks" by the Adirondack Mountain Club Press. It shows each and every campsite, lean-to, trailhead, trail junction and DEC Interior Outpost. It tells you the color of the trail markers, the distances.... everything (Oh yeah, its also topographical with USGS84 GPS co'ord's printed on it).If you are going up to the high peaks of the Adirondacks, and plan on going in more then 1/2 a mile, this is required.

Get your bearings and explore the beauty of the High Peaks with this handy map from the Adirondack Mountain Club.
