Leo W. Banks, Tom Dollar, Rose Houk, Sam Negri, Joe Stocker : Travel Arizona II : A Guide to the Best Tours and Sites before purchasing it in order to gage whether or not it would be worth my time, and all praised Travel Arizona II : A Guide to the Best Tours and Sites:

10 of 10 people found the following review helpful. A Showcase for the ArizonaBy A CustomerWe are using this book to plan a family trip through Arizona to celebrate milestone birthdays. Although we have visited the state many times, the photographs of the scenic beauty are second only to an up close and personal experience. From the Grand Canyon's natural beauty to the winds blowing through Tuzigoot to the exhibits of the Heard Museum to the history of Tombstone to the mines of Bisbee, this book covers sites that are of interest to every age group. It is easily a virtual tour of the Grand Canyon state.2 of 2 people found the following review helpful. Travel Arizona IIBy V.

WalgurskiGreat book for anyone wanting to travel to Arizona or to give as a gift. Beautiful photos thru out the book. Great photography. I believe anyone will enjoy this book.

Travel Arizona II focuses on historic, cultural, scenic, and otherwise fascinating sites of Arizona. This guidebook highlights the best that Arizona offers through the efforts of five veteran writers - with nearly 150 years of exploring this state - more than two dozen photographers, and specialists in research, maps, and book design. Brief bios of authors are in the book's introduction. Included are 14 trips in all regions of the state, plus three chapters devoted to the best attractions in Phoenix and Tucson, and a chapter highlighting sites and institutions focusing on ancient and contemporary Native American cultures. Brimming with information and definitive color photographs more than (200) of Arizona's outback and urban attractions, this book guides travelers on 14 tours to towns, deserts, mountains, and valleys. Chapters devoted to Phoenix and Tucson attractions depict the uniqueness of these cities imprinted with cultures ancient and modern - from stone chip to computer chip. Plus, readers will learn where to enjoy the "urban outdoors" in Phoenix and Tucson. Complementing all that, "when you go" lists provide telephone numbers, Internet addresses, and other information for travelers. This book points the way for newcomers to Arizona or anyone wanting to explore the state's diverse attractions and beauty. To them, we say: When you explore Arizona, take along plenty of water and this guidebook - for who knows more about showcasing Arizona's scenic, cultural, and historical bounty than Arizona Highways.
