**Margaret Goldston : Travelin' Fingers, Book 1 (8 Piano Solos with Shifting Five-Finger Positions, LEVEL: Elementary / Late Elementary)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Travelin' Fingers, Book 1 (8 Piano Solos with Shifting Five-Finger Positions, LEVEL: Elementary / Late Elementary):

Two exciting collections of elementary (Book 1) and late elementary (Book 2) piano solos depicting cities and countries around the world. The pieces get the pianist's fingers traveling with shifting five-finger positions. Great for teachers who don't want their students to get "locked in" to hand positions. Each book includes a section titled "Preparing for Travels" containing helpful suggestions and exercises on the shifting positions. -----Includes the Following Selection: Title Opus/Ref Composer Highland Jig Goldston ,Minuet for a Princess Goldston ,Kangaroo Party Goldston ,Circus Boogie Goldston ,Horse Tricks Goldston ,Mountain Bike Ride Goldston ,Ice Skaters Goldston ,Swingin' Penguin Goldston
