Eleanor Berman : Traveling Solo before purchasing it in order to gauge whether or not it would be worth my time, and all praised Traveling Solo:

42 of 42 people found the following review helpful. More for group travel than solo
By A Customer
I was quite disappointed in this book. I wanted a book on actually traveling solo, experiencing new places and situations from a solitary point of view. Most of this book is in fact about being a single person in a group travel situation, with lots of information about tours, resorts, cruises, and such. If that's what you're looking for, I can see that this book might be

helpful. The little bit of actual information for solo travelers is basic common sense that is in all such books -- stay in safe neighborhoods, don't keep your money all in one place, don't stand around looking like an idiot.

The best-researched guide available on the subject of solo travel, this book caters to all ages, budgets, tastes, and interests. It provides all the pertinent information on a wide range of vacation options
